

BLP4500HP EXTERNAL LINKAGE SYSTEM

BLP Products is proud to introduce a new external linkage system for the Holley® 4500HP series carburetors. This revolutionary design moves all of the linkage from underneath the carburetor allowing the racer to change linkage ratios from 1:1 to 3 different progressions all on the outside of the carburetor. Each change can be made within seconds.

- *Thinned throttle shafts provide up to an extra 15CFM from a stock throttle shaft.*
- *Nickel plated shafts for durability and corrosion resistance.*
- *4 different progressions available in a matter of a few seconds. No more tearing the carburetor completely apart to change linkage ratios.*
- *Available for three different bore sizes 2.000-2.125-2.190.*

EXTERNAL LINKAGE KITS

PART NO.	APPLICATION
49352-2.000	1050-1150HP with 2.000" throttle bore.
49352-2.125	1050-1250HP with 2.125" throttle bore.
49352-2.190	1050-1250HP with 2.190" throttle bore.

EXTERNAL LINKAGE SERVICE PARTS

PART NO.	APPLICATION
49352-7	Spacer, primary throttle shaft.
49352-8	Spacer, secondary throttle shaft.
49352-12	Link pins.
49352-24	Connectors for linkage.
49352-25-2.000	Primary throttle shaft for 2.000 thru 2.030 throttle plates.
49352-25-2.125	Primary throttle shaft for 2.050 thru 2.180 throttle plates.
49352-25-2.190	Primary throttle shaft 2.190 thru 2.250 throttle plates.
49352-26-2.000	Secondary throttle shaft for 2.000 thru 2.030 throttle plates.
49352-26-2.125	Secondary throttle shaft for 2.050 thru 2.180 throttle plates.
49352-26-2.190	Secondary throttle plates for 2.190 thru 2.250 throttle plates.

BASE PLATE BUSHING KIT

The BLP Base Plate Bushing System is designed to be a very accurate and cost effective method to install brass bushings in Holley® base plates. Designed to be used with a small to medium size lathe.

Kit comes complete with:

- *Solid carbide custom reamer featuring a pilot and boring stop.*
- *.370 Primary bushing reamer.*
- *.371 Secondary bushing reamer.*
- *Bushing installer.*
- *Flex hone.*
- *4 Brass bushings.*

PART NO.	APPLICATION
7873	Complete bushing install kit.
7873-1	Custom carbide reamer.
7873-2	Bushing pilot.
7873-3	Bushing punch.
7873-4	.370 Primary bushing reamer.
7873-5	.371 Secondary bushing reamer.
7873-6	Bushing hone.
4481	Brass bushings.

HOLLEY® BARE METERING BLOCKS

The metering blocks are completely machined but have no drive-in restrictors or passage plugs. The accelerator pump passage plug is furnished.

HOLLEY® OEM STANDARD METERING BLOCKS

PART NO.	APPLICATION
346392-3	0-7448 350 2-barrel.
14782	Emulsion tube for 350 metering block, (2 required).
345925-3	0-4412 500 2-barrel.
3411180-3	0-4779 750 4-barrel.
349716	Blank metering plate for vacuum secondary carbs. (Various sizes can be requested).
