

BLP BILLET METERING BLOCK WITH BUILT IN BOWL EXTENSION

BLP5136 Series

This is an all-new metering block with a built in bowl extension. It can be used in both drag and circle track applications. The metering block is 1.200" thick and uses (4) special fasteners that bolt the metering block to the main body. The stock bowl screws can be used. Uses a 350 x 32 BLP L series jet thread.

METERING BLOCK COMPONENTS

PART NO.	APPLICATION
1540	Idle mixture screw.
15120	Idle mixture screw, large head.
27152	Idle mixture cork seals.
271521	Idle mixture screw seal urethane.
5307	Metering block pin.
5312	Acc pump passage plug.
5991	Vent whistle (baffle).
5159	Vent whistle rivot.
141293	Idle tube for 4500, straight tube.
14782	Main well emulsion tube for 350 2-barrel metering block part number BLP 346392-3.
7107	Plug, brass .250" main and idle well.
7122	Lead ball .140" for 4500 Holley®3-circuit.
5307	Gasket retainer pin for billet metering blocks.
5308	Extension for float bowl screws.
5313	Accelerator pump passage for billet metering blocks.

POWER VALVES

BLP only offers Holley® power valves, because the accuracy of the opening and closing is consistent and the thread pitch is correct. The stamped number on the power valve is the amount of engine vacuum it takes to close the power valve.

Example: a power valve that is stamped 65 will close when the engine reaches 6.5" or more inches of vacuum.

GAS: 25591-

2.5	3.5	4.5	5.0	6.5
7.5	8.5	9.5	10.5	

ALKY HI-FLOW: 25595-

3.5	4.5	5.5	6.5

PART NO.	APPLICATION
25620	Power valve block off plug
81597	Power valve gasket

NEEDLE AND SEATS

PART NO.	APPLICATION
18135	.110 Gas
18318	.120 Gas
18135-128	.128 Gas

BLP ALCOHOL NEEDLE AND SEATS

Machined from titanium, with special shape to handle higher idle fuel pressures.

PART NO.	APPLICATION
18135-150	.150 Alcohol

BLP FUEL BOWL ASSEMBLIES

Center hung fuel bowl assemblies that are custom built to meet the race carburetor builder's specifications. Your choice of needle and seats, floats and accelerator pumps can be altered to meet your specific needs.

Please call for pricing and details.

HOLLEY® FUEL BOWLS, BARE

PART NO.	APPLICATION
3411341-1	4150 primary.
3411335	4150 secondary.
344652	4150 vacuum secondary.
3411343-1	4500 primary.
3411347-1	4500 secondary.

FLOATS

PART NO.	APPLICATION
16420	Brass center hung.
16451	Nitrophenyl center hung.
16596	Nitrophenyl center hung notched drag race float.

BLP MODIFIED FLOATS

BLP offers a full line of special application floats. These floats are machined to the proper shape and weight and are compatible with gasoline or alcohol.

PART NO.	APPLICATION
43701	Primary circle track.
43711	Secondary circle track.
43721	Road race.
43731	Drag race special weight.
