**VERTICAL MILL BOOSTER INSTALLATION TOOL**

The BLP 78751 Booster Installation System was designed to be used with a vertical mill or drill press. This tool provides the professional carburetor builder with an easy and consistent method for installing boosters in the Holley® 2300 2-barrel and 4150 4-barrel carburetors. This tool will install Holley® down leg, straight leg, and Braswell™ style boosters. Annular booster can be installed with the special adapter included in this kit. Like all BLP products, this tool will produce excellent results when used properly.

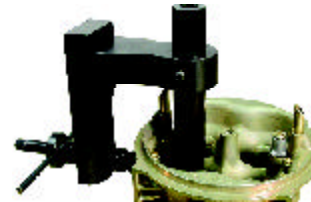

PART NO.	APPLICATION
78751	BLP booster installation system.
78751-1	Main Bar
78751-2	Anvil
78751-3	Base Upright
78751-4	Base
78751-5	Spin Rivot Rod.
78761	Annular booster adapter.
