

TAPERED CARTRIDGE ROLL MANDREL

PART NUMBER	PILOT DIAMETER	PILOT LENGTH	SHANK	SHANK LENGTH
7950	1/8	1"	1/4	6"
7951	1/8	1"	1/4	10"
7952	1/4	1"	1/4	6"
7953	1/4	1"	3/8	6"

FLAPPER MANDREL

Mandrel with a slot machined in the end to insert emery cloth for "flapping" type of polishing. The mandrels are 1/4 shank and are 6" long.

PART NO.	DESCRIPTION
7961	.020 slot 1/4 shank 6" long.
7963	.030 slot 1/4 shank 6" long.

HEAD BOLT SLEEVE REAMER AND INSTALLER

The reamer is made from solid carbide for long life and will insure easy installation of the thin wall head bolt sleeves. This same reamer can be used to install over size fuel pump pushrods.

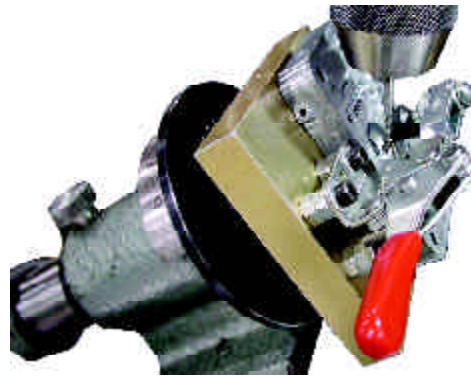

PART NO.	DESCRIPTION
7851	Reamer
7852	Head bolt sleeve installation driver.

POLISHING DISCS

Quick Change laminated flat polishing discs are very good for polishing combustion chamber floors and intake manifold plenum.

PART NO.	DESCRIPTION
7955	1 1/2" disc holder with 1/4" shank.
7956	40 grit x 1 1/2" disc.
7957	150 grit x 1 1/2" disc.

METERING BLOCK MACHINING FIXTURE

This unique fixture will allow you to easily and accurately machine any passage in a Holley® metering block. The kit comes with the Spindex® rotation fixture and a 5C collet.

PART NO.	APPLICATION
7883	Metering block machining kit.
