

CARBURETOR PARTS AND FUEL LINES

BLP VENT TUBES

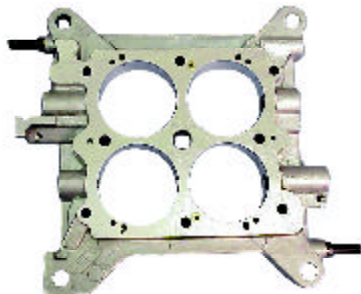

PART NO.	APPLICATION
4858-1.400	1.400 long.
4858-1.675	1.675 long.
4858-2.125	2.125 long.
48581	Marine J Tube.
48582	BLP design vent tube. Top of the vent tube is solid and bowl is vented from side of the tube. This prevents the air cleaner top from having any effect on float bowl pressure.

HOLLEY® STANDARD, BARE BASE PLATES

Holley® bare base plates come with accelerator pump pivots, secondary return spring pin, and secondary idle adjusting screw.

PART NO.	APPLICATION
126864-3	350 2-barrel.
123975-4	500 2-barrel.

HOLLEY® HP BARE BASE PLATES

PART NO.	APPLICATION
1211416	500 HP 2-barrel
1211217	HP 390CFM. Throttle bores are machined in-house to insure passing a Nascar inspection.
1211195-1	HP 600CFM
1211195-2	HP 650-750CFM
1211334	HP 830CFM. BLP machines the throttle bore chamfers in-house. The chamfers are centered and the depth is correct.
1211196	HP 850-1000CFM

BLP MACHINED BARE BASE PLATES

BLP Machined Bare Base Plates are flycut for true gasket mating surfaces and bushed using BLP 4481 bronze bushings for long life.
